

Evaluation Report of Academic Records from: Mexico Ref. No: C00-33-22CA

Name: Sample CLIENT

Purpose of
Evaluation: Further Education

Date: July 1, 2007

1. *Titulo de Ingeniero Industrial Mecanico en Termica* (Title of Industrial-Mechanical Engineering in Thermal Technology), awarded in 2007 by authority of the *Secretaria de Educacion Publica* (Secretary of Public Education), following a program at the *Instituto Tecnologico de Aguascalientes* (Technical Institute of Aguascalientes). Admission to the program requires high school graduation (*bachiller*) and the passing of an entrance examination. The title is, in level and intent, the academic equivalent of a bachelor's degree in mechanical engineering, with concentration in industrial-thermal systems, awarded by regionally accredited institutions in the United States, with a cumulative grade average of 'B.'

2. This is an evaluation of academic credentials. Only authorities in the profession can determine whether the *titulo* is a qualification equivalent to a degree in engineering earned in professionally accredited programs and if it meets the standards and requirements for licensing in the United States. Evaluation Service, Inc., does not assess professional experience outside of formal academic training.

3. SUMMARY: It is the judgment of Evaluation Service Inc., that Student CLIENT has the academic equivalent of a bachelor's degree in mechanical engineering, with concentration in industrial-thermal systems, from a regionally accredited institution in the United States.
